

Prayer for Everyone – Buddhism Social Toolkit

Social media is an important component in telling friends and fellow Buddhists about the Global Goals; it makes communication personal but quick, and is an easy way to share your message with a wide community. We've provided this toolkit with sample tweets and posts for your ease of use, but we encourage you to personalize your involvement in any way that speaks to you.

In many cases, we've included specific goals as an example but we invite you to make edits to reflect your own voice and hopes. Which Goal will you champion?
